Navigating the App to Find Your Balance

Once logged in, your account dashboard is usually the first thing you see. Your current balance, remaining data, and other key inclusions are typically displayed prominently. You can often tap on these sections for a more detailed breakdown of your usage and remaining allowances. This is also where you can:

1. View your current plan details
2. Check your data usage
3. See your call and SMS history
4. Recharge your prepaid service

5. Manage your account settings
6. Access customer support

The My Optus app is incredibly user-friendly and designed to provide quick access to essential information. It's especially useful for those who want a holistic view of their Optus services.

2. USSD Codes: The Classic, Speedy Method

For those who prefer not to download another app or are in a situation where app access might be limited, Unstructured Supplementary Service Data (USSD) codes are a lifesaver. These are simple codes you dial on your phone's keypad, and they instantly provide you with the information you need.

How to Use Optus USSD Codes

Dialling a USSD code is straightforward. Open your phone's dialler, type in the specific code, and press the call button. A message will pop up on your screen with your Optus balance information. While Optus occasionally updates these codes, a commonly used one for checking prepaid balance is:

Dial: *178#

After dialling this code and pressing call, you should receive an SMS or an on-screen message detailing your remaining credit, data, and potentially other key plan inclusions. It's a quick, no-fuss way to get essential balance information on the go.

Tip: It's a good idea to save this USSD code in your contacts for easy access in the future. You might also find other useful Optus USSD codes for different services, so keep an eye on the Optus website for the most up-to-date information.

3. Optus Website: Your Online Portal

If you prefer using a web browser, the Optus website offers a robust online portal where you can manage your account, including checking your balance.

Logging into My Account on the Optus Website

Head over to the official Optus website. Look for the "My Account" or "Login" section. You'll be prompted to enter your My Optus username and password. If you've forgotten your login details, there are options to reset them.

Checking Balance for Specific Optus Services

These methods will show you your remaining credit, which you can then use for calls, texts, and data.

Checking Optus Postpaid Balance

For Optus postpaid customers, you won't have a "balance" in the prepaid sense. Instead, you'll be interested in:

1. **Your Current Bill Amount:** This is the amount you owe for your current billing cycle.
2. **Your Included Allowances:** This includes your data, minutes, and SMS inclusions for the month.

You can check these via:

1. **My Optus App:** Navigate to the billing section or your plan details.
2. **Optus Website:** Log in to My Account and go to the billing section.
3. **Your Monthly Bill:** The PDF bill sent to your email or available online will detail your usage and charges.

Troubleshooting Common Issues

Occasionally, you might encounter issues when trying to check your Optus balance. Here are a few common problems and how to resolve them:

1. **USSD Code Not Working:** Ensure you're dialling the correct code and that you have a stable network connection. Sometimes, restarting your phone can help. If it continues to fail, try using the My Optus app or website.
2. **App Not Loading Balance:** Check your internet connection. If the app is still not showing your balance, try logging out and back in, or clearing the app's cache. Ensure you have the latest version of the My Optus app installed.

cookies. Ensure you're using a supported browser. If problems persist, contact Optus customer support.

4. **Incorrect Balance Information:** While rare, if you believe the balance displayed is incorrect, the best course of action is to contact Optus customer service directly. They can investigate your account history and provide accurate information.

Maximising Your Optus Plan and Managing Your Balance

Once you're comfortable checking your Optus balance, you can start actively managing your plan for optimal use:

2. **Monitor Data Usage Regularly:** Use the My Optus app or website to keep an eye on your data consumption. If you notice you're using a lot of data, consider connecting to Wi-Fi whenever possible or exploring data top-up options.
3. **Understand Your Plan Inclusions:** Familiarise yourself with what your Optus plan includes – data, calls, SMS, international roaming, etc. This knowledge helps you avoid unexpected charges.
4. **Explore Data Top-Ups:** If you're on a prepaid plan and

running low on data, Optus offers various data top-up options that can be purchased through the app, website, or by dialling a USSD code.
