Leader in Me lesson plans provide the structured pathways for educators to introduce, reinforce, and apply these habits in meaningful ways.

Key Components of Effective Leader in Me Lesson Plans

While the specific content of Leader in Me lesson plans can vary, they consistently share several crucial elements designed for maximum impact:

Alignment with the 7 Habits

The most defining characteristic of any Leader in Me lesson plan is its direct connection to one or more of the 7 Habits. Each lesson is intentionally crafted to explore, explain, and provide opportunities for students to practice a specific habit. For instance, a lesson focused on "Be Proactive" might involve scenarios where students identify problems and brainstorm solutions independently, rather than waiting for adult intervention. Similarly, a "Think Win-Win" lesson could involve collaborative problem-solving activities where students are encouraged to find solutions that benefit all parties involved.

Clear Learning Objectives

Effective lesson plans, including those for Leader in Me, always begin with clearly defined learning objectives. These objectives outline what students will know or be able to do by the end of the lesson. For Leader in Me, these objectives often extend beyond academic content to include the development of specific leadership skills and habit application. For example, an objective might be: "Students will be able to identify three personal goals and create a simple action plan to achieve them (Begin with the End in Mind)."

Engaging Activities and Strategies

Leader in Me lesson plans are rich with engaging, age-appropriate activities. These can include discussions, role-playing, project-based learning, group work, journaling, creative writing, and visual arts. The emphasis is on active learning and student-centered approaches that promote participation and deeper understanding. For example, a "Synergize" lesson might involve a team-building challenge where students must work together, leveraging each other's strengths to achieve a common goal, illustrating the power of collaboration.

Differentiated Instruction

Recognizing the diverse needs of learners, well-designed Leader in Me lesson plans incorporate strategies for differentiation. This ensures that all students, regardless of their learning style, pace, or background, can access and benefit from the lesson. This might involve providing varied levels of support, offering choices in how students demonstrate their learning, or adapting activities to cater to different skill levels.

Assessment and Reflection

Assessment in Leader in Me goes beyond traditional tests. Lesson plans often include opportunities for students to reflect on their learning and demonstrate their understanding of the habits through various means. This can include self-assessments, peer feedback, teacher observations, and evidence of habit application in their daily work and behavior.

Reflection prompts encourage students to consider how they have applied a habit and what they have learned from the experience.

Integration with Core Subjects

A significant strength of the Leader in Me approach is its seamless integration with existing academic subjects. Leader in Me lesson plans are not standalone units; they are designed to be woven into the teaching of reading, writing, math, science, and social studies. For instance, a science experiment can be a perfect opportunity to teach "Be Proactive" by having students take ownership of the experimental setup and troubleshooting. 'Leader in Me' lesson plans are rooted in Stephen Covey's '7 Habits of Highly Effective People,' focusing on developing leadership and life skills in students. They shift from teacher-centered instruction to student-centered learning, empowering students to take ownership of their education and develop self-management, interpersonal skills, and a proactive mindset.

2	Can you give an example of a 'Leader in Me' lesson that incorporates one of the 7 Habits, and what are its objectives?	A 'Leader in Me' lesson on 'Habit 1: Be Proactive' might involve students identifying problems in their classroom (e.g., messy supply area) and then brainstorming solutions they can implement themselves. The objective is to teach them that they have control over their reactions and can choose their responses, fostering responsibility and initiative.
3	How do 'Leader in Me' lesson plans help foster student engagement and intrinsic motivation?	These lesson plans empower students by giving them choices and opportunities for leadership. When students feel valued, heard, and responsible for their learning, their intrinsic motivation increases. Lessons often involve collaborative projects, problem-solving, and self-reflection, making learning more meaningful and engaging.
4	What are some practical strategies for adapting 'Leader in Me' principles into daily classroom routines and activities, beyond formal lesson plans?	Integrate the 7 Habits into classroom language (e.g., 'Let's be proactive about cleaning up'). Implement student-led morning meetings, create student leadership roles (e.g., line leader, equipment manager), encourage peer teaching and feedback, and celebrate student achievements that demonstrate habit development. Focus on creating a culture of respect and responsibility.

5	Where can educators find resources and support for developing or implementing 'Leader in Me' lesson plans effectively?	The official FranklinCovey 'Leader in Me' website is a primary resource, offering training, curriculum guides, and digital tools. Many schools that implement the program also share best practices and resources internally. Online educational communities and forums dedicated to leadership education can also provide valuable insights and support.
